

# MASKED TENSION

Advantages of the screen:  
a tensioned screen projection surface and the casing design are the most important qualities of a good screen.

**Functionality:** a tensioned screen projection surface; every aspect ratio; white powder painting; full customization; Somfy drive with 5 years warranty; BB upper top; control options: IR remote control, RF, Trigger, RS232.

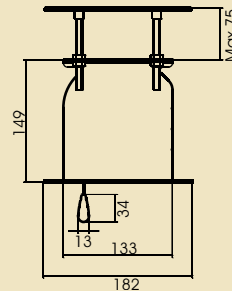

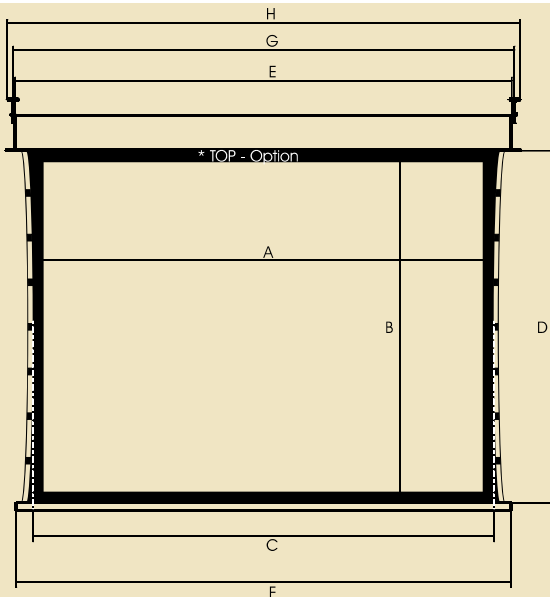

The highest line of screens for installation over a ceiling with a perfectly tensioned projection surface. Models used in interiors, where the elements that are part of the

theatre are to be almost invisible. At the time of projection the screen slides out from the ceiling and the casing remains almost imperceptible.

$$C = A + 100$$

$$D = B + 100$$

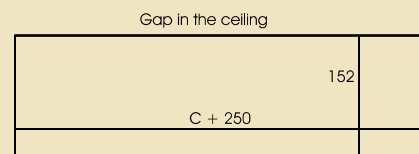

$$E = A + 314$$

$$F = A + 280$$

$$G = A + 339$$

$$H = A + 390$$

The gap in the ceiling:  
152 x C + 250
