

# SCREEN-LIFT

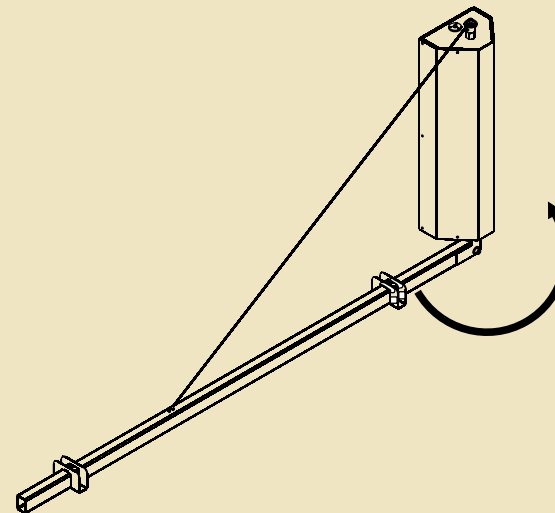

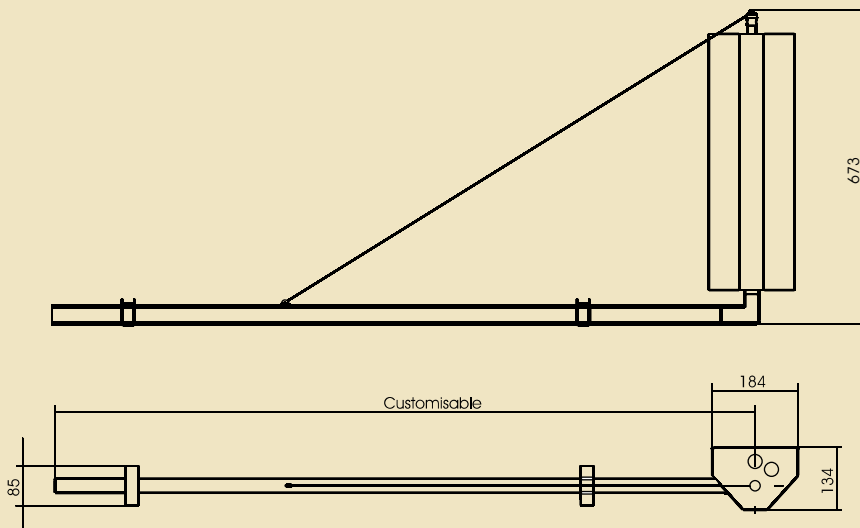

**Advantages:** tilts a screen with a width from 160 cm to 350 cm, exposing the presbytery at the end of the projection. Introduces AV technology to the interior of a church and historic interiors.

**Functionality:** quiet operation; adjustable settings; easy operation; solid construction; stable for screens between 160 - 350 cm; 230V power supply; control options - IR, RF remote control, Trigger, RS232.

System for tilting a projection screen in the direction of a wall that is often used in churches. After a text is shown on the screen, it is

rolled up and reveals the presbytery, preserving space. Received an award for innovation at the Sacro Expo Fair.
