

MAXFRAME

WWW.VIZ-ART.EU

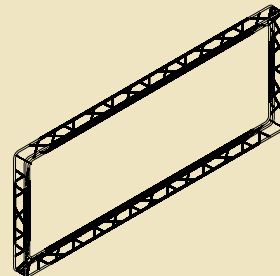

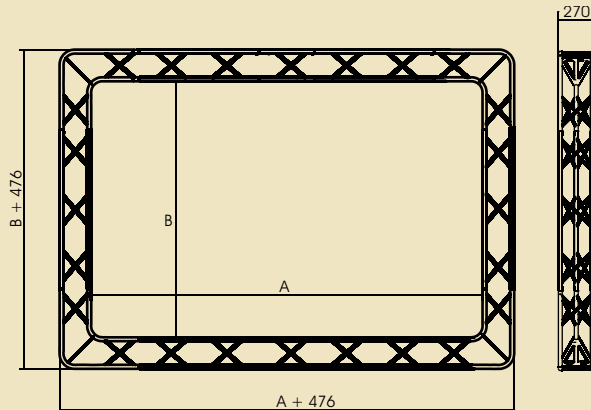

Advantages of the screen: the range of surfaces; manufacture to the individual size, convenience in transport and set-up; for outdoor and indoor set-up.

Functionality: every size, proportion and RAL colour; easy set-up; stability and durability.

Large format frame screens with tensioned projection surface. Steel frame structure assembled of modules, convenient to set up

and transport. Frame's construction ensures stability of even large screens (up to 11 meters).
