

ELLIPSE TENSION

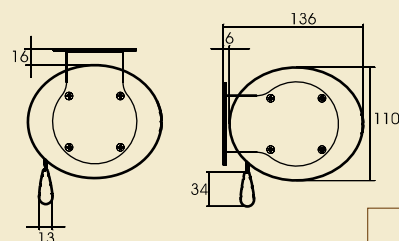

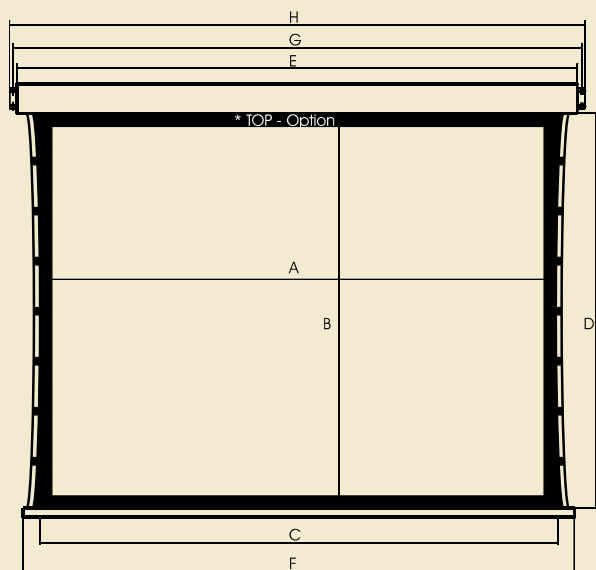

Advantages of the screen:
a tensioned screen projection surface and the casing design are the most important attributes of a good screen.

Functionality: tensioned screen projection surface; every aspect ratio; stylish aluminium casing; full customization; Somfy drive with 5 years warranty; upper top BB; control options: IR, RF remote control, Trigger, RS232.

High-class projection screens with projection surface tensioners and original satin elliptical casing. The TENSION system tensions the projection surface of the screen in order to ensure that projection is comfortable. This line of screens has been created in response to the high expectations of demanding customers completing their dream Home Theatre.
